

CM Handle Connectivity Freshness/ Staleness

CPS Demo

13 October 2023 - Friday

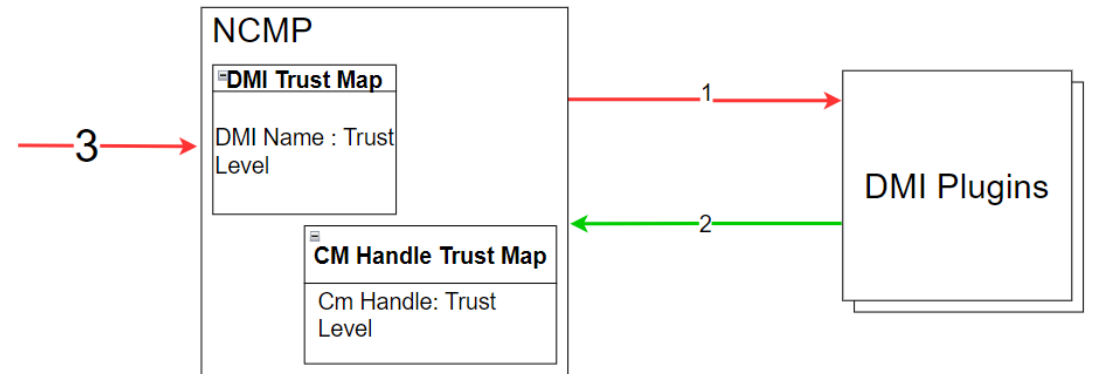

Implementations: **CPS Team 2**

The requirements in the demo

Req 2: CM Handles can be queried on “trustLevel”

Req 6: DMI plugin can report the current “trustLevel” of a single CmHandle ID

Req 4: WatchDog DMI Plugin (only watchdog part done.)

Containers subject to demo

- kafka
- cps-and-ncmp
- dbpostgresql
- ncmp-dmi-plugin1
- Zookeeper

docker-compose with Docker Desktop running on windows.

Test scenarios

- 1- The DMI plugin reports the current “trust level” as COMPLETE for PNFDemo (CmHandle) via the Kafka interface (Req. 6)
- 2- Query CmHandle API with trust level: COMPLETE (Req. 2)
- 3- WatchDog: DMI Plugin (Health Check) (Req. 4)
